Social Trading Policy

1. Introduction

This Social Trading Policy outlines the principles, procedures, and responsibilities associated with the use of Dupoin International (MU) Ltd's (hereinafter referred to as "Dupoin") social trading platform. It governs the relationship between users of the platform — referred to as "Strategy Creators" and "Followers"—and Dupoin (the "Company"). By engaging with the Social Trading services, users agree to be fully bound by the terms and conditions set forth herein.

2. Independent Strategies

Dupoin's Social Trading provides a platform that allows users to create and share their trading strategies. The platform enables other users to independently decide whether to follow such strategies.

All strategies are created solely by users, and Dupoin does not endorse, recommend, verify, or guarantee the accuracy, reliability, or suitability of any strategy.

3. No Involvement in Trading Results

Dupoin acts solely as a service provider offering the technological infrastructure for Social Trading. We do not participate in, manage, or influence any trading decisions or outcomes.

All profits, losses, and trading results are entirely borne by participating users, including both strategy creators and followers.

4. Risk Disclosure

Trading financial products (including foreign exchange) involves significant risk and may not be suitable for all investors. Past performance of any trading strategy does not guarantee future results.

Users should carefully assess their financial situation and risk tolerance before participating. Following a strategy does not eliminate the risk of financial loss.

5. No Financial Advice

Dupoin does not provide any financial, investment, or trading advice. Any content, strategy, or information available on the Social Trading platform is for reference only and should not be considered personalized advice.

5.1 User Responsibilities

Dupoin does not provide any financial, investment, or trading advice. Any content, strategy, or information available on the Social Trading platform is for reference only and should not be considered personalized advice.

6. Limitation of Liability

Dupoin shall not be liable for any financial loss, damage, or claims arising from the use of the Social Trading platform.

Dupoin shall not be liable for losses resulting from network latency, platform synchronization delays, copy-trading execution delays, or any other technical factors. Users bear full responsibility for their own trading decisions and actions.

7. Platform Usage Terms

By accessing and using the Social Trading platform, users agree to comply with all applicable laws and regulations.

Dupoin reserves the right to modify or discontinue the Social Trading platform at any time without prior notice.

8. Conflict of Interest

Dupoin does not take positions against users and does not directly profit from users' trading activities.

9. Relationship Between Dupoin and Social Trading

Social Trading is an independent third-party technology service provider and has no affiliation, agency, joint venture, or control relationship with any Dupoin's partner. The use of Social Trading services does not constitute any recommendation, endorsement, or validation of Dupoin.

Dupoin bears no responsibility for any strategies, content, performance, execution results, or technical services provided on the Social Trading platform. Users acknowledge that their trading relationship exists solely between themselves and Dupoin with which they hold an account; no brokerage relationship exists between users and the Social Trading platform.
